S-E-C-R-E-T**COUNTRY: Hungary****DATE: 28 February 1957****SUBJECT: Nuclear Physics Research Institute in Budapest****DATE OF INFO:**

25X1

**Location of Institute**

1. For location of the atomic laboratory, see overlay A on page 3. The overlay is based on a 1:25,000 Hungarian town plan of Budapest dated 1929 and reproduced in 1944 by the Geographical Section, General Staff. The establishment was known as "Atomfizikai Kutató Intézet" (Nuclear Physics Research Institute) or "Csillebérc üzem" (Csillebérc plant).

25X1

Completed Construction

2. In 1951, the stone wall, four meters high, fencing the Institute area, was completed and since that time several one and two-story buildings have been erected. They were scattered over a wooded lot 350 by 200 meters, and even from the air it was difficult to get a precise idea of their size and location.

25X1

Police detachment was housed and a two-story building resembling an apartment house, almost in the middle of the lot (see overlay B on page 4). The establishment was heavily guarded. Dogs were used in addition to the guard detachment.

3. It was rumored that part of the installation was underground.

25X1

There was heavy traffic of both cars and trucks in the morning and at night when the employees arrived and left.
